

# **ZOOM SESSION LESSON PLAN**

**YDP Name(s):** *Veronica Flores*

**Creative Zoom Session Title:** Moon Sand Mania

**Creative Zoom Synopsis (1-2 sentences max.):** Sure, it's the stuff of messy for us parents and teachers, along with Play-Doh and slime, but the kids sure will love it!

**Date and Time of Zoom Session:** Tuesday, Oct. 6

**Age Group:** Kinder-1st

**Group Size:** 5-10

**Core Program Area:** Education and Fun while learning

**Priority Outcome:** Academic Success

**Session Main Activity Objective or Purpose:** Students will improve and exercise their fine motor skills, senses, focus and develop new brain connections. Sensory play is so good for kids! Your kids will have so much fun playing around with it, squeezing it, molding it, crumbling it, using their creativity and imagination while at it.

**Skills Practiced:** Listen to detail and be engaged

**Brief Description of Warm Up:** This 2 ingredient (flour and baby oil) moon sand recipe is so simple, easy and fun to make. Moon sand is a unique but simple mixture of flour and baby oil. It can be packed together for great sand castles, formed into mounds and mountains and molded. It stays moist while you play and doesn't harden like clay!

**Brief Description of Main Activity:** Grab an extra large mixing bowl (the bigger the better as it makes things a little less messy). To the bowl add 4

cups of flour, along with 1/2 cup baby oil. Mix with a fork, then use fingers to combine. Dump into a flat bin and add your add-ins.

**Reflection Questions:** What are some things, toys or more that you can add into sand in order to have more fun? Because sand is a messy but fun thing to play with, do you think it will be a great idea to be extra careful not to make too much of a mess and help clean up? How does it feel going through your hands and fingers?

**Feedback poll questions:** Show me thumbs! Up, Down, or All Around

**Session Preparation and Setup:** Have materials and supplies ready

**Additional On the Spot Fun Ideas:** You can add essential oil(s), in order to smell good. You can even add food coloring for colored sand

**Supplies Needed:**

4 cups of flour (you can use more or less depending on the consistency you want)

1/2 cup baby oil (you can also use olive or any other oil you have)

Large bowl

Fork

Bin or [Pyrex dish](#)

[Play-dough cutters](#) (optional)
